About Me

- Experience in designing and developing backend APIs and services with MVC and ORM framework on relational databases such as SQL Server and MySQL.

- Having experience with microservices architecture, OOP or functional programming, and design patterns.

- Experience with the message queuing technologies such as RabitMQ, PullMQ, Laravel Jobs, Redis.

- Good knowledge of linux OS (CentOS, Ubuntu) and related tools (SSH tool, terminal usage).

- Familiar with source version control (Git).

- Familiar with working processes: Agile/Scrum.

- Work well in teams or groups.

- Work well under high pressure and independently.

- Work well with PHP Frameworks: (e.g Codeigniter, CakePhp, Laravel, ...)

- Familiar with PostgreSQL and MongoDB.

- Experience with TypeORM , Prisma ORM, Mongoose..

- Experience with front-end framework (e.g. React.js with Redux, VueJS, VueX, Nuxt.js, Next.Js).

- Experience with ECMAScript 6, TypeScript, Node.js, Nest.Js

- Experience with Microservices.

- Experience with GraphQL and Restful API.

- Strong knowledge of web technologies such as HTML, CSS, JavaScript, AJAX.

- Experience with Bootstrap Css, Materialize Css, Tailwind Css.

- Ensure the technical feasibility of UI/UX designs.

- Git
- Linux Ubuntu
- NodeJS
- MYSQL
- PHP

Certifications

2013

IT Training Center – Nhất Nghệ

PHP and MySQL Programmer

- Exceptional problem-solving and debugging skills.

- Programming has always been my passion. I try to enjoy my work, try to be a good person, a leader and learn every day from the best.

Education

09/2006 - 05/2012 (5 years 8 months)

Bachelors - Electronics and telecommunications

Post & Telecommunications – HCMC Campus

Relevant Coursework: Operating Systems Architecture, Linux/ Unix Programming
Usability in Website and Software Design, C - C++ Programming I & II
Web Page Development, Relational Database Design & SQL, Data Engineering, Advanced Software Programming.

Work History

06/2025 - Present (5 month)

Shift Asia

Senior Php | Full-stack Developer

Outsourcing Projects: Web Development with Stack Nx | NextJS | NestJS | Prisma | GraphQL | Tailwind Css
+ Backend: Laravel Php Framework, NestJS (API NodeJS)
+ Database: MySQL, PostgreSQL, MongoDB
+ Frontend: VueJs, NuxtJS, ReactJS, NextJS

02/2020 - 05/2025 (5 years 3 months)

Tabaha Software Solutions

Senior Php | Full-stack Developer

- Outsourcing Projects: Web Development with Stack Nx | NextJS | NestJS | Prisma | GraphQL | Tailwind Css
- Develop ERP Products:
+ Backend: Laravel Php Framework, NestJS (API NodeJS)
+ Database: MySQL, PostgreSQL, MongoDB
+ Frontend: VueJs, NuxtJS, ReactJS, NextJS
- Creating Automation Test tool:
+ WebdriverIO framework for automation testing web app .
+ Docker, docker-compose
- Experience in discuss and analyze customer requirements.
- Designed the first core of main source code for development team
- Design and build core system for ERP system (auto365)

- Create backend functions (CRUD)
- Create and process queues, jobs, broadcast Events
- Design and build Audit-Log system: save editing history of backend functions to MongoDB
- Write Automation test tool system: use Appium, Webdriver-io (support running action simulation on website or app)
- Design and build Refactor system using NestJs as backend Api and NuxtJs as Frontend
- *Experience in leading a team (5 - 7 members) in 5 years: define the structure of the project, design the initial core-source code, Break the task heads, organize the estimation of tasks, divide tasks according to the strengths or suitability to the team members. Manage the Flow from Dev to Test team, UAT process, start and end of Sprint. Responsible for the quality of the final product.*

09/2016 - 02/2020 (3 years 5 months)

Rebus Software Development

Senior Php Developer

- Develop Php Website Product:
+ *Backend: Laravel Php Framework, MySQL, Redis*
+ *Frontend: Vuejs, nodejs*
- Refactor Php Website Product: convent monolithid system to Micro services system. Experience in designed the core of system
+ *Docker: container service, docker-compose*
+ *Restful Api: Laravel Lumen*
+ *Database: MySQL*
+ *RabidMQ*
+ *Redis*
+ *ReactJs: Redux*
- *Do backend functions (CRUD)*
- *Integrate new Game into Live-Play page*
- *Integrate payment gateway (API Gateway)*
- *Synchronize gamelog processing*
- *Create and process queues, jobs*
- *Design and build core system running Restful Api using Laravel Lumen for each container in Micro service using Docker*

01/2016 - 08/2016 (7 month)

Twin Software Solutions

Senior Developer

- Develop Php Website Product: CakePHP, Laravel Framework, MySQL
- Develop website CMS: .NET Framework

02/2015 - 12/2015 (10 month)

24H (Deca.vn)

Middle Developer

- Develop Php Website Product: CakePHP, Laravel Framework, MySQL

07/2013 - 01/2015 (1 year 6 month)

Haiwin Media

Php Middle Developer - IOS Junior Developer

- Develop Php Website Product: Codeigniter Php Framework, MySQL.
- Develop IOS Application: Swift programming

07/2013 - 01/2015 (1 year 6 month)

TDA Solution

Junior Developer

- Web Page Development : Html, Css, Javascript.
- Beginning with Ruby on rails
